Accessories
for Perfect Freeze Drying

Freeze Drying / Lyophilisation

✳Freeze drying or lyophilisation takes place in the solid (frozen) state and is the preferred means for the long-term preservation of a wide variety of substances and for specimen preparation for modern analytic methods.
It is also used in animal preparations and in museums to preserve the original material forms.
Relatively new applications involve the drying of nanoparticles, where it is important to avoid the effects of capillary forces and surface tension.
Freeze drying is used for more than 30 different substance categories or materials, with the pharmaceutical and biotechnology industries and food preservation being the most significant application areas.

1 Freeze Drying / Lyophilisation

1   Freeze Drying / Lyophilisation

Freeze drying or lyophilisation is by far the gentlest way to remove moisture from materials. The physical phenomenon of sublimation means a direct transition from the solid state to the vapour state without passing through the liquid state. The frozen material is dried under vacuum without thawing. This method can be used for a wide variety of applications:

- Preserving the characteristics of original substances in products (e.g. pharmaceutical products or milk)
- Preserving the original form (e.g. animal preparations, archaeological objects or flowers)
- Conditioning the material (e.g. freeze-dried fruit in yoghurt)
- Chemical analyses (e.g. trace element analyses of foods, sludge or soil)

Freeze dryers are generally divided into two categories: batch freeze dryers and continuous freeze dryers. Batch freeze dryers are available with capacities from 2 kg to approximately 1 tonne per batch. Christ specialises in this product category and is the only manufacturer worldwide offering products that cover the full spectrum from standard laboratory units to pilot freeze dryers and large production units.

Laboratory freeze dryer systems

- Ice condenser capacity 2 to 24 kg
- Mainly air-cooled chilling systems
- Broad range of accessories for a wide variety
  of applications

Pilot freeze dryer systems

- Ice condenser capacity 6 to 16 kg
- Air-cooled or water-cooled chilling systems
- Freezing and drying in the drying chamber
- on shelves with liquid temperature control

Production freeze drying systems

- Ice condenser capacity from 20 to 500 kg
- Water-cooled chilling systems
- Freezing and drying in the drying chamber
- on shelves with liquid temperature control
- One-chamber and two-chamber systems
- Special custom systems,
  SIP/H_2O_2 disinfection, CIP, IQ/OQ, etc.
- Process integration (loading systems, auxiliary units)
✳Accessories from Christ enable tailored solutions for individual applications. The modular system architecture makes adaptation to altered requirements easy, even a long time
after the basic unit was acquired.
The units in the Advanced series can be operated as one-chamber or two-chamber systems as desired with the appropriate accessories.
Many accessories, such as acrylic chambers, can be used on basic units with capacities from 4 kg to 24 kg ice capacity. A number of example systems are described below.

2 Example Applications

Starter package

Accessories for our smallest unit, Alpha 1–2 LDplus, for drying in round-bottom flasks,
wide-neck bottles or ampoules or on unheated shelves.
Starter product package with Alpha 1–2 LDplus   Starter

3 shelves dia. 200 mm = 920 cm², distance between shelves 85 mm, additional ports for 8 flasks, round-bottom flasks and wide-neck bottles or distributor			
System	Alpha 1-2 LDplus (item no. 101521)		
Description	Item number	Quantity	Page
1 Vacuum sensor	125478	1	88
2 Vacuum hose	125702	1	86
3 Base plate	120890	1	36
4 Three unheated shelves	120893	1	27
5 Acrylic drying chamber with 8 ports	121455	1	20
6 Rubber valves	121860	8	60
7 Vacuum pump RZ-2,5 (2.25 m³/h)	125302	1	85
8 Exhaust filter	125501	1	87

Routine package

Accessories for the Beta series for drying in round-bottom flasks, wide-neck bottles or vials
or on unheated shelves with relatively high specimen volume.
Routine product package with Beta 2–8 LSCbasic   Routine

Drying chamber with 24 ports for bottles, round-bottom flasks and wide-neck bottles or distributor for ampoules			
System	Beta 2–8 LSCbasic		
Description	Item number	Quantity	Page
1 Vacuum sensor	125478	1	88
2 Vacuum pump RZ-6	125307	1	85
3 Exhaust filter	125501	1	87
4 Vacuum hose	125702	1	86
5 Acrylic drying chamber	121550	1	22
6 Extra acrylic drying chamber	121850	1	22
7 Rubber valve for connecting vessels	121860	24	60
8 Drip tray for acrylic drying chamber	121360	1	37

Pharmacy product package

Accessories for the Alpha LSCplus series for carrying out the complete freeze drying
process, including connection of crimp-seal vials under vacuum or inert gas.

Pharmacy 1 product package with Alpha 2-4 LSCplus   Pharmacy 1

Freezing and drying ice condenser chamber (method A) cooled shelves with sealing device (dia. 200 mm, total area 0.031 m²)			
System	Alpha 2-4 LSCplus (item no. 102142)		
Description	Item number	Quantity	Page
1 Extension unit HED-16 LSCplus	125041	1	
2 Vacuum pump RZ-2,5 (2.25 m³/h)	125302	1	85
3 Exhaust filter	125501	1	87
4 Vacuum hose with standard flange couplings	125702	1	86
5 Electromagnetic pressure control and stop valve	125910	1	87
6 Sealing device integrated in acrylic lid	120861	1	30

Dish Drying 1 product package

Accessories for laboratory systems with LSCplus controller for drying relatively large
specimen volumes in dishes or vessels (or in aluminium blocks if necessary).

Dish Drying 1 product package with Alpha 1-4 LSCplus   Dish Drying 1

10 heated shelves (dia. 200 mm; total area 0.31 m², distance between shelves 25 mm – can be adjusted by removing shelves)			
System	Alpha 1-4 LSCplus (item no. 102141)		
Description	Item number	Quantity	Page
1 Extension unit HED-16 LSCplus	125041	1	
2 Vacuum pump RZ-6	125307	1	85
3 Exhaust filter	125501	1	87
4 Vacuum hose with standard flange couplings	125702	1	86
5 Electromagnetic pressure control and stop valve	125910	1	87
6 Base plate	120880	1	34
7 Frame for 10 shelves	121160	1	35
8 Shelves with rim, dia. 200 mm, with LyoBus-Modul	122576	10	34
9 Acrylic drying chamber	121558	1	21

Pharmacy 2 product package

Accessories for laboratory systems with LSCplus controller for drying relatively large product volumes
in crimp-seal vials, including connection under vacuum or inert gas.

Pharmacy 2 product package with Alpha 2-4 LSCplus   Pharmacy 2

4 heated shelves with sealing device (dia. 250 mm, total area 0.18 m², distance between shelves 50 mm – can be adjusted by removing shelves)			
System	Alpha 2–4 LSCplus (item no. 102142)		
Description	Item number	Quantity	Page
1 Extension unit HED-16 LSCplus	125041	1	
2 Vacuum pump RZ-6	125307	1	85
3 Exhaust filter	125501	1	87
4 Vacuum hose with standard flange couplings	125702	1	86
5 Electromagnetic pressure control and stop valve	125910	1	87
6 Base plate	120880	1	34
7 Sealing device with 1 shelf	120841	1	31
8 Shelf with rim	120830	3	31
9 Acrylic drying chamber	121505	1	21

Flask Drying product package

Accessories for the Gamma and Delta LSCplus series for drying in round-bottom flasks,
wide-neck bottles or ampoules.

Flask Drying product package with Gamma 2–16 LSCplus   Flask Drying

Drying manifold for 24 round-bottom flasks / wide-neck bottles or distributor for ampoules			
System	Gamma 2–16 LSCplus (item no. 102211)		
Description	Item number	Quantity	Page
1 Vacuum pump RC-6	125295	1	84
2 Vacuum hose with standard flange couplings	125702	1	86
3 Electromagnetic pressure control and stop valve	125911	1	
4 Solvent-resistant manifold with 24 rubber valves	112237	1	39
5 Drip tray	121360	1	39

Dish Drying 2 product package

Accessories for the Delta (and Gamma) LSCplus series for drying very large
specimen volumes in dishes.

Dish Drying 2 product package with Delta 2-24 LSCplus

Dish Drying 2

8 heatable shelves (dia. 375 mm, total area 0.88 m², distance between shelves 48 mm)			
System	Delta 2–24 LSCplus (item no. 102301)		
Description	Item number	Quantity	Page
1 Vacuum pump 20 m³/h	125263	1	84
2 Exhaust filter	125502	1	88
3 Electromagnetic pressure control and stop valve	125911	1	
4 Plate frame with 8 electrically heatable shelves	122826	1	36
5 Acrylic drying chamber	121529	1	25
6 Lifting hoist for acrylic drying chamber, electronic control	121914	1	
Drying Chambers

* Drying chambers and manifolds are often desirable extensions to the basic unit for high specimen throughput. The chambers are recipients in which both heated and unheated shelves can be placed. Sealing devices can be used when long-term storage of the freeze-dried specimens under vacuum or under an inert gas atmosphere is desired.
Stainless steel manifolds are the ideal solution for users who work exclusively with flasks or wide-neck bottles.

3 Drying chambers and shelves

3.1 Drying Chambers

Drying chambers Ø 240 mm (for Alpha 1–2 LDplus)

The drying chamber can be placed directly on top of any laboratory system. A base plate is additionally
necessary when shelves and racks are used.

Acrylic drying chamber — Order number **121450**

Diameter	240 mm
Clear height	285 mm
Weight approx.	3.6 kg
Features	With NS 45/40 ground joint stoppers
Remark	Alpha 1-2 LDplus

Acrylic drying chamber — Order number **121454**

Diameter	240 mm
Clear height	285 mm
Weight approx.	3.6 kg
Features	With 6 ports for individually closable rubber valves
Remark	Alpha 1-2 LDplus

Acrylic drying chamber — Order number **121455**

Diameter	240 mm
Clear height	285 mm
Weight approx.	3.6 kg
Features	With 8 ports for individually closable rubber valves, including NS 45/40 ground joint stoppers
Remark	Alpha 1-2 LDplus

Overview

Ø 240 mm only for Alpha 1–2 LDplus

Item number	Height [mm]	Connections	Weight [kg]
121450	285		3.6
121454	285	6	3.6
121455	285	8	3.6

Stainless steel drying chamber — Order number **121536**

Diameter	240 mm
Clear height	295 mm
Weight	8 kg
Features	With adapter ring, only usable in combination with glass lid 121398
Remark	Alpha 1-2 LDplus

Connection ring, stainless steel

Order number 121534

Diameter	240 mm
Clear height	55 mm
Weight	2.7 kg
Features	With 8 ports for rubber valves including adapter ring; can only be used in combination with glass lid 121398 and stainless steel drying chamber 121536
Connection	For connecting vessels with DIN female ground joint NS29/32: 8x 100 ml, 8x 250 ml, 8x 500 ml, 8x 1000 ml, 8x 2000 ml round-bottom flasks 8x 75 ml, 8x 150 ml, 8x 300 ml, 8x 600 ml, 8x 1200 ml wide-neck filter bottles
Remark	Alpha 1-2 LDplus

Drying chambers Ø 300 mm (not for Alpha 1–2 LDplus)

Acrylic drying chamber

Order number 121500

Diameter	300 mm
Clear height	295 mm
Weight approx.	4.5 kg
Features	With stoppers
Remark	For all laboratory units except of Alpha 1-2 LDplus

Acrylic drying chamber

Order number 121505

Diameter	300 mm
Clear height	460 mm
Weight approx.	6 kg
Features	With stoppers
Remark	For all laboratory units except of Alpha 1-2 LDplus

Acrylic drying chamber

Order number 121558

Diameter	300 mm
Clear height	515 mm
Weight approx.	6.4 kg
Features	Suitable for hoist
Remark	For all laboratory units except of Alpha 1-2 LDplus

Acrylic drying chamber		Order number	121550
Diameter	300 mm		
Clear height	295 mm		
Weight approx.	5.1 kg		
Connection	With 12 ports for individually closable rubber valves		
Features	With stoppers		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Additional acrylic chamber		Order number	121850
Diameter	300 mm		
Clear height	295 mm		
Weight approx.	4.8 kg		
Connection	With 12 ports for individually closable rubber valves		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Acrylic drying chamber		Order number	121555
Diameter	300 mm		
Clear height	460 mm		
Weight approx.	6 kg		
Connection	With 12 ports for individually closable rubber valves		
Features	With stoppers		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Acrylic drying chamber		Order number	121557
Diameter	300 mm		
Clear height	515 mm		
Weight approx.	6.6 kg		
Connection	With 12 ports for individually closable rubber valves		
Features	Suitable for hoist		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Overview

Ø 300 mm for Alpha to Delta

Item number	Height [mm]	Connections	Weight [kg]
121500	295		4.5
121550	295	12	5.1
121850	295	12	4.8
121505	460		6
121555	460	12	5.1
121558	515		6.4
121557	515	12	6.6

Stainless steel drying chamber Order number 121537

Diameter	300 mm
Clear height	295 mm
Weight approx.	5.4 kg
Related items	Only suitable for use with glass lid 121411
Features	With adapter ring
Remark	For all laboratory units except of Alpha 1-2 LDplus

Stainless steel drying chamber Order number 121538

Diameter	300 mm
Clear height	460 mm
Weight approx.	8.6 kg
Related items	Only suitable for use with glass lid 121411
Features	With adapter ring
Remark	For all laboratory units except of Alpha 1-2 LDplus

Conection ring, stainless steel Order number 121535

Diameter	300 mm
Height	55 mm
Weight	2 kg
Connection	For connecting vessels with DIN female ground joint NS29/32: 12x100 ml, 12x250 ml, 12x500 ml, 12x1000 ml, 12x2000 ml round-bottom flasks · 12x75 ml, 12x150 ml, 12x300 ml, 12x600 ml, 12x1200 ml wide-neck filter bottles
Related items	Only usable for use with glass lid 121411 and stainless steel drying chamber 121537 or 121538
Features	With adapter ring
Remark	For all laboratory units except of Alpha 1-2 LDplus

Drying chambers Ø 457 mm (not suitable for use with Alpha 1–2 LDplus)
• Adapter flange item no. 120901 required for Alpha 1/2–4 LSCbasic and Beta 1/2–8 LSCbasic
• Adapter flange item no. 120881 required for Alpha 1/2–4 LSCplus and Beta 1/2–8 LSCplus

Acrylic drying chamber	Order number	121511
Diameter	457 mm	
Clear height	340 mm	
Weight approx.	12.7 kg	
Features	With hoisting eye including connection for lifting device	
Remark	For all laboratory units except of Alpha 1-2 LDplus	

Acrylic drying chamber	Order number	121515
Diameter	457 mm	
Clear height	340 mm	
Weight approx.	12.7 kg	
Features	With 18 individually closable rubber valves, hoisting eye including connection for lifting device	
Remark	For all laboratory units except of Alpha 1-2 LDplus	

Acrylic drying chamber	Order number	121517
Diameter	457 mm	
Clear height	460 mm	
Weight approx.	14.3 kg	
Features	With hoisting eye including connection for lifting device	
Remark	For all laboratory units except of Alpha 1-2 LDplus	

Acrylic drying chamber	Order number	121521
Diameter	457 mm	
Clear height	460 mm	
Weight approx.	14.3 kg	
Features	With 18 ports for rubber valves, hoisting eye including connection for lifting device	
Remark	For all laboratory units except of Alpha 1-2 LDplus	

Acrylic drying chamber		Order number	121523
Diameter	457 mm		
Clear height	565 mm		
Weight approx.	15.8 kg		
Features	With hoisting eye including connection for lifting device		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Acrylic drying chamber		Order number	121527
Diameter	457 mm		
Clear height	565 mm		
Weight approx.	15.8 kg		
Features	With 18 ports for rubber valves, with hoisting eye including connection for lifting device		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Acrylic drying chamber		Order number	121529
Diameter	457 mm		
Clear height	693 mm		
Weight approx.	17.6 kg		
Features	With hoisting eye including connection for lifting device		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Acrylic drying chamber		Order number	121531
Diameter	457 mm		
Clear height	693 mm		
Weight approx.	17.6 kg		
Features	With 18 ports for rubber valves, hoisting eye including connection for lifting device		
Remark	For all laboratory units except of Alpha 1-2 LDplus		

Overview

Ø 457 mm for Alpha to Delta

Item number	Height [mm]	Connections	Weight [kg]
121511	340		12.7
121515	340	18	12.7
121517	460		14.3
121521	460	18	14.3
121523	565		15.8
121527	565	18	15.8
121529	693		17.6
121531	693	18	17.6

Stoppers for acrylic chambers   Order number   121410

NS	45/40
Colour	Black
Remark	Also usable with acrylic lid (121404) and glass lid (121411)

Rubber stoppers   Order number   492299

Function	For closing ports in acrylic chambers
Colour	Grey

Silicone cap   Order number   492300

Function	For ports of acrylic chambers

3.2 Unheated shelves

Shelves

3 stainless steel shelves   Order number   120893

Diameter	200 mm
High approx.	220 mm
Heating/cooling	Unheated
Features	Spacing between shelves 85 mm
Remark	Only for Alpha 1–2 LDplus

3 stainless steel shelves   Order number   120903

Diameter	265 mm
Height approx.	220 mm
Heating/cooling	Unheated
Features	Spacing between shelves 79 mm

5 stainless steel shelves   Order number   120902

Diameter	265 mm
High approx.	390 mm
Heating/cooling	Unheated
Features	Spacing between shelves 79 mm

5 stainless steel shelves   Order number   112229

Diameter	360 mm
Heating/cooling	Unheated
Features	Spacing between shelves 70 mm
Remark	Not for Alpha 1–2 LDplus

1 aluminium shelf with rim and feet   Order number   112279

Spacing	33 mm
Diameter	265 mm
Heating/cooling	Unheated
Features	Stackable up to 10 high
Remark	Not for Alpha 1–2 LDplus

1 aluminium shelf with rim and feet   Order number   112318

Diameter	200 mm
Heating/cooling	Unheated
Remark	For use with Alpha 1–2 LDplus and other laboratory freeze dryers

Number of drying vessels per shelf, order number 120902 and 120903

Order number of drying vessels	ID code Nominal capacity (ml)	Dimensions Ø (mm)	Dimensions height (mm)	Content with 1 cm layer		Number	Min. necessary spacing
				Static (ml)	Dynamic (ml)*		
127502	2 ml	12	121	0.6	1.2 (sh. f.)	345	125
127505	5 ml	12	156	0.6	2.5 (sh. f.)	345	160
127510	10 ml	16	156	1.2	3.5 (sh. f.)	185	160
127572	2 R	16	35	1.2		185	50
127576	6 R	22	40	3.0		100	55
127580	10 R	24	45	4.5		88	60
127582	20 R	30	55	6.0		54	70
127585	50 H	42.5	73	12.0	35–40 (sp. f.)	25	88
127590	100 H	51.6	94.5	18.0	65–70 (sp. f.)	16	110
127603	300	78	140	38.0	125–135 (sp. f.)	7	162
127605	500	78	207	38.0	250–300 (sp. f.)	7	229
127000		65	20	28.0		11	25
127010		75	20	45.0		8	25
127073		200	22	300.0		1	25

*sh.f. = shell freezing; sp.f. = spin freezing (see introduction)

Rack	Order number 127202
Function	To hold 10 (11) microtiter plates (no deep-well plates)
Clearance	20 mm
Material	Anodised aluminium plate holders and stainless steel spacers
Features	If the microtiter plates are placed in this rack for freezing (externally), the specially formed anodised aluminium plate holders act as cold buffers, which prevents partial or full thawing of the specimens at the start of the process
Remark	Use base plate 120906 for Alpha to Delta
Dimensions	Height 283.5 mm, depth 97.5 mm, width 133.5 mm

Rack	Order number 127203
Function	To hold 1 deep-well plate or 1 microtiter plate
Clearance	50 mm
Material	Anodised aluminium plate holders and stainless steel spacers
Features	If the microtiter plates are placed in this rack for freezing (externally), the specially formed anodised aluminium plate holders act as cold buffers, which prevents partial or full thawing of the specimens at the start of the process. Shelves can be stacked up to 5 high
Remark	For Alpha to Delta

Rack	Order number	110394
Function	To hold 6 microtiter plates or 6 deep-well plates	
Clearance	85 mm	
Material	Anodised aluminium with stainless steel spacers in three levels	
Features	Not stackable	
Remark	Also for Alpha 1–2 LDplus	

Rack	Order number	110527
Function	To hold 5 microtiter plates	
Clearance	25 mm	
Material	Stainless steel with PDVF feet	
Features	Racks can be stacked up to 3 high	
Remark	Also for Alpha 1–2 LDplus	
Dimensions	Height 137 mm, depth 130.6 mm, width 89.5 mm	

Sealing devices for LDplus / LSCbasic controller

Sealing device with 2 shelf with rim	Order number	121015
Diameter	200 mm	
Temperature control system	None	
Extension	Shelves, separation 70 mm; with just one shelf 152 mm	
Features	Only in combination with base plate 120890	
Remark	For Alpha 1–2 LDplus	
Hood	121450 or 121455 can be used	

Sealing device with 1 shelf with rim	Order number	121020
Diameter	250 mm	
Temperature control system	None	
Extension	Can be extended to 2 shelves (max.) with shelf 120959	
Remark	For Alpha 1/2–4 LSCbasic and Beta 1/2-8 LSCbasic	
Hood	121500 or 121550 can be used	

Sealing device with 1 shelf with rim	Order number	121021
Diameter	250 mm	
Temperature control system	None	
Extension	Can be extended to max. 4 shelves (120959)	
Remark	For Alpha 1/2–4 LSCbasic and Beta 1/2-8 LSCbasic	
Hood	121505 or 121555 can be used	

3.3   Heated shelves

Sealing devices for LSCplus controller (wireless)
Sealing device with 1 shelf		Order number	120860
Diameter	**200 mm**		
Function	For sealing injection vials with serrated rubber stoppers under vacuum or inert gas		
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul		
Weight approx.	6.5 kg		
Remark	Max. vessel height 70 mm; for LSCplus controller		
Fan		Order number	120862
Diameter	**200 mm**		
Function	For circulation of cold air		
Weight approx.			
Remark	For LSCplus controller; integrated into 120860, 120861 and 120761		

Number of drying vessels per shelf, order number 120860 and 121009

Order number of drying vessels	ID code Nominal capacity (ml)	Dimensions Ø (mm)	Dimensions height (mm)	Content with 1 cm layer		Number
				Static (ml)	Dynamic (ml) *	
127572	2 R	16	35	1.2		116
127576	6 R	22	40	3.0		60
127580	10 R	24	45	4.5		48
127582	20 R	30	55	6.0		29
127585	50 H	42.5	73	12.0	35–40 (sp. f.)	15
127001		65	20	28.0		5
127010		75	20	45.0		4

* sh. f. = shell freezing; sp. f. = spin freezing (see introduction)

Sealing device with max. 2 shelves		Order number	120821
Diameter	250 mm		
Function	For sealing injection vials with serrated rubber stoppers under vacuum or inert gas		
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul		
Extension	Can be extended to max. 2 shelves (120830)		
Weight approx.	8 kg		
Remark	For LSCplus controller		

Options

Shelf arrangement	Clearance between shelves (mm)	Usable shelf area (cm²)
1	110 to 35	450
2	2x 45 to 35	900

Sealing devices for LSCplus controller (wireless)

Sealing device with max. 4 shelves   Order number   120841

Diameter	250 mm
Function	For sealing injection vials with serrated rubber stoppers under vacuum or inert gas
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul
Extension	Can be extended to max. 4 shelves (120830)
Features	Height of pressure plate is adjustable
Weight approx.	8.4 kg
Remark	For LSCplus controller

Options

Shelf arrangement	Clearance between shelves (mm)	Usable shelf area (cm^2)
1	290 to 35	450
2	2x 135 to 35	900
3	3x 83 to 35	1350
4	4x 50 to 35	1800

Shelf   Order number   120830

Diameter	250 mm
Surface	Black anodised
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul
Use	For item 120821 and 120841

Fan   Order number   120801

Diameter	250 mm
Function	For circulation of cold air
Weight approx.	1.1 kg
Remark	For LSCplus controller; integrated into 120821 and 120841

Number of drying vessels per shelf order number 120821, 120841 and 120830

Order number of drying vessels	ID code Nominal capacity (ml)	Dimensions Ø (mm)	Dimensions height (mm)	Content with 1 cm layer		Number	Min. necessary shelf area and spacing
				Static (ml)	Dynamic (ml) *		
127502	2 ml	12	121	0.6	1.2 (sh. f.)	280	125
127505	5 ml	12	156	0.6	2.5 (sh. f.)	280	160

* sh. f. = shell freezing; sp. f. = spin freezing (see introduction)

Shelves for single-chamber method ("inside") for LSCplus controller

Shelves with integrated acrylic lid

Order number 120861

Diameter	200 mm
Material	Aluminium, black anodised
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul
Weight	
Remark	Max. vessel height 70 mm; for LSCplus controller

Shelves with integrated acrylic lid

Order number 120761

Diameter	200 mm
Material	Aluminium, black anodised
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul
Weight	
Remark	Max. vessel height 140 mm; only usable with 120755, for LSCplus controller

Adapter / distance ring

Order number 120755

Diameter	300 mm
Material	PET

Fan

Order number 120862

Diameter	200 mm
Function	For circulation of cold air
Weight	
Remark	For LSCplus controller; integrated into 120860, 120861 and 120761

Support frame

Order number 121945

Function	To hold max. 5 shelves Ø 200 mm
Use	Inside the ice condenser chamber
Height approx.	295 mm
Weight	2 kg
Remark	Suitable for Gamma and Delta with LSCplus controller

Variations

Shelf arrangement	Clearance between shelves (mm)	Usable shelf area (cm²)
1	208	314
1+5	138+32	628
1+4	130+76	628
1, 3 + 5	2x 69 + 32	942
1 to 5	4x 25 + 32	1570

Shelves for single-chamber method ("inside") for LSCplus controller
Support frame		Order number	121960
Function	To hold max. 10 shelves Ø 200 mm		
Use	Inside the ice condenser chamber		
Height approx.	514 mm		
Weight	3.3 kg		
Remark	Suitable for Delta with LSCplus controller		

Variations

Shelf arrangement	Clearance between shelves (mm)	Usable shelf area (cm^2)
1	428	314
1 + 10	377 + 32	628
1 + 9	330 + 76	628
1 + 8	289 + 120	628
1 + 7	245 + 164	628
1 + 6	201 + 208	628
1, 5 + 9	2x 157 + 76	942
1 + 4 + 7 + 10	3x 113 + 32	1256
1 + 3 + 5 + 7 + 9	4x 69 + 76	1570
1 to 10	9x 25 + 32	3140

Shelf		Order number	122576
Diameter	200 mm		
Material	Aluminium, black anodised		
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul		
Weight approx.	2.3 kg		
Control	For LSCplus controller		

Shelves for double-chamber method ("outside") for LSCplus controller

Base plate		Order number	120880
Diameter	300 mm		
Function	The base plate is necessary when shelves are used		
Control	For LSCplus controller		

Adapter flange		Order number	120881
Diameter	457 mm		
Function	For mounting drying chamber Ø 457 mm		
Remark	Only for Alpha and Beta with LSCplus controller		

Shelves for double-chamber method ("outside") for LSCplus controller

Support frame		Order number	121145
Function	To hold max. 5 shelves Ø 200 mm		
Use	Outside of ice condenser chamber		
Height approx.	295 mm		
Weight	2 kg		
Control	For LSCplus controller		

Variations

Shelf arrangement	Clearance between shelves (mm)	Usable shelf area (cm²)
1	208	314
1 + 5	138 + 32	628
1 + 4	130 + 76	628
1 + 3 + 5	4x 69 + 32	942
1 to 5	4x 25 + 32	1570
Support frame		Order number	121160
Function	To hold max. 10 shelves Ø 200 mm		
Use	Outside of ice condenser chamber		
Height approx.	514 mm		
Weight	3.3 kg		
Control	For LSCplus controller		

Variations

Shelf arrangement	Clearance between shelves (mm)	Usable shelf area (cm²)
1	428	314
1 + 10	377 + 32	628
1 + 9	330 + 76	628
1 + 8	289 + 120	628
1 + 7	245 + 164	628
1 + 6	201 + 208	628
1 + 5 + 9	2x 157 + 76	942
1 + 4 + 7 + 10	3x 113 + 32	1256
1 + 3 + 5 + 7 9	4x 69 + 76	1570
1 to 10	9x 25 + 32	3140

Shelf		Order number	122576
Diameter	200 mm		
Material	Aluminium, black anodised		
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul		
Weight approx.	2.3 kg		
Control	For LSCplus controller		

Shelves for double-chamber method ("outside") for LSCplus controller

Intermediate valve

Order number: 122032

Diameter	300 mm
Control	For LSCplus controller
Remark	Base plate 120880 is necessary

LyoCube Base frame

Order number: 122557

Dimensions	424 x 334 x 360 mm (H x W x D)
Material	Stainless steel
Weight	Approx. 3 kg
Control	For LSCplus controller

Shelf

Order number: 122561

Dimensions	256 x 300 mm
Material	Aluminium, black anodised
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul
Weight approx.	Approx. 2.5 kg
Control	For LSCplus controller

Plate frame with 3 shelves, 86 mm between shelves — Order number: 122872

Plate frame with 5 shelves, 67 mm between shelves — Order number: 122857

Plate frame with 8 shelves, 48 mm between shelves — Order number: 122826

Diameter	375 mm
Material	Aluminium, black anodised
Temperature control system	Electrical heating with built-in sensor PT 100 and LyoBus-Modul
Control	For LSCplus controller

Base plate

Order number: 120890

Diameter	240 mm
Features	The accessory base plate is necessary when shelves are used
Remark	Only for Alpha 1–2 LDplus

Adapter flange

Order number: 120901

Function	For mounting drying chamber Ø 457
Features	For Alpha 1/2–4 LSCbasic and Beta 1–8/2–8 LSCbasic

Drip tray for manifold

| Order number | 121350 |

Diameter	500 mm
Function	For protection of the freeze dryer; collects the condensation water dripping from the drying vessels
Remark	Alpha to Gamma, for manifolds 121208, 110538 and 121280

Drip tray for drying chamber

| Order number | 121355 |

Diameter	575 mm
Inside diameter	260 mm
Function	For protection of the freeze dryer; collects the condensation water dripping from the drying vessels
Remark	For Alpha 1–2 LDplus

Drip tray

| Order number | 121360 |

Diameter	650 mm
Function	For protection of the freeze dryer; collects the condensation water dripping from the drying vessels
Weight approx.	2 kg
Remark	Suitable for drying chamber Ø 300 mm

Drip tray

| Order number | 121365 |

Function	For protection of the freeze dryer; collects the condensation water dripping from the drying vessels
Remark	Suitable for drying chamber Ø 457 mm, outside 800 mm

Glass lid

| Order number | 121398 |

Diameter	240 mm
Features	With central DIN female ground joint NS 45/40 and stopper NS 45/40
Remark	Only for Alpha 1–2 LDplus

Acrylic lid

| Order number | 121404 |

Diameter	300 mm
Weight approx.	3.1 kg
Features	With central DIN female ground joint NS 45/40 and stopper NS 45/40
Thickness	40 mm

Safety glass lid

| Order number | 121411 |

Diameter	300 mm
Features	Solvent resistant, with central stainless steel DIN female ground joint NS 45/40 and stopper
Thickness	19 mm

3.4 Drying manifolds

Drying manifolds

Vertical manifold	Order number	110538
Material	Stainless steel with DIN male ground joint NS 45/40	
Width	372 mm	
Height	1030 mm	
Function	For connection to acrylic or glass lid with female ground joint and 12 rubber valves, **for substances containing solvents**	
Connections	For connecting vessels with DIN female ground joint NS 29/32: 12x 100 ml, 12x 250 ml, 12x 1000 ml, 12x 2000 ml round-bottom flasks, 12x 75 ml, 12x 150 ml, 12x 300 ml, 12x 600 ml, 12x 1200 ml, 8x 2000 ml wide-neck filter bottles	
Features	The connections can be shut off individually and the drying vessels can be vented individually	
Remark	Three levels with four connections each; Alpha 1-2 LDplus, Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24	

Vertical manifold	Order number	121224
Material	Stainless steel with DIN male ground joint NS 45/40	
Width	650 mm	
Height	1170 mm	
Weight approx.	18 kg	
Function	With flange-mounted glass lid Ø 300 mm and 24 rubber valves, for aqueous solutions	
Connections	For connecting vessels with DIN female ground joint NS29/32: 24x 100 ml, 24x 250 ml, 24x 500 ml, 24x 1000 ml, 16x 2000 ml round-bottom flasks, 24x 75 ml, 24x 150 ml, 24x 300 ml, 24x 600 ml, 24x 1200 ml, 8x 2000 ml wide-neck filter bottles	
Features	The connections can be shut off individually and the drying vessels can be vented individually	
Remark	Three levels with eight connections each; Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24	

Vertical manifold	Order number	121226
Material	Stainless steel with DIN male ground joint NS 45/40	
Width	380 mm	
Height	755 mm	
Function	For connection to acrylic or glass lid with female ground joint and 8 rubber valves, **for substances containing solvents**	
Connections	For connecting vessels with DIN female ground joint NS29/32: 8x 100 ml, 8x 250 ml, 8x 500 ml, 8x 1000 ml, 4x 2000 ml round-bottom flasks, 8x 75 ml, 8x 150 ml, 8x 300 ml, 8x 600 ml, 8x 1200 ml, 4x 2000 ml wide-neck filter bottles	
Features	The connections can be shut off individually and the drying vessels can be vented individually	
Remark	Two levels with four connections each; Alpha 1–2 LDplus, Alpha 1/2-4, Beta 1/2–8, Gamma 1/2–16, Delta 1/2–24 and Epsilon 2–6 D LSC/LSCplus	

Drying manifolds

Vertical manifold — Order number 112237

Material	Stainless steel with DIN male ground joint NS 45/40
Width	650 mm
Height	946 mm
Function	With flange-mounted glass lid Ø 300 mm and 24 rubber valves, **for substances containing solvents**
Features	**With DIN10KF connector for hot water defrosting**
Connections	For connecting vessels with DIN female ground joint NS 29/32: 24x 100 ml, 24x 250 ml, 24x 500 ml, 24x 1000 ml, 8x 2000 ml round-bottom flasks, 24x 75 ml, 24x 150 ml, 24x 300 ml, 24x 600 ml, 16x 1200 ml, 8x 2000 ml wide-neck filter bottles
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Three levels with eight connections each; Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24

Vertical manifold — Order number 112306

Material	Stainless steel
Width	650 mm
Height	903 mm
Function	With flange-mounted glass lid Ø 300 mm and 16 rubber valves, **for substances containing solvents**
Features	**With DN 10 KF connector for hot water defrosting**
Connections	For connecting vessels with DIN female ground joint NS 29/32: 16x 100 ml, 16x 250 ml, 16x 500 ml, 16x 1000 ml, 16x 2000 ml round-bottom flasks, 16x 75 ml, 16x 150 ml, 16x 300 ml, 16x 600 ml, 16x 1200 ml, 8x 2000 ml wide-neck filter bottles
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Two levels with eight connections each; Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24

Vertical manifold — Order number 112393

Material	Stainless steel
Width	650 mm
Height	1129 mm
Function	With flange-mounted glass lid Ø 300 mm and 16 rubber valves, **for substances containing solvents**
Features	**With DN 10 KF connector for hot water defrosting**
Connections	For connecting vessels with DIN female ground joint NS 29/32: 16x 100 ml, 16x 250 ml, 16x 500 ml, 16x 1000 ml, 16x 2000 ml round-bottom flasks, 16x 75 ml, 16x 150 ml, 16x 300 ml, 16x 600 ml, 16x 1200 ml, 16x 2000 ml wide-neck filter bottles
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Two levels with eight connections each; Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24

Drying manifolds

Vertical manifold — Order number 121280

Material	Stainless steel with DIN male ground joint NS 45/40
Width	108 mm
Height	450 mm
Weight	3 kg
Function	For connection to acrylic or glass lid with female ground joint and 48 hoses, for aqueous solutions, for connecting vials
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Alpha 1-2 LDplus, Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24

Vertical manifold — Order number 110280

Material	Stainless steel with DIN male ground joint NS 45/40
Width	108 mm
Height	545 mm
Function	For connection to acrylic or glass lid with female ground joint and 60 hoses, for connection of ampoules
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24
Note	separate connection set necessary

Vertical manifold — Order number 112322

Material	Stainless steel with DIN KF 40 connection
Width	520 mm
Height	770 mm
Weight	Approx. 10 kg
Function	For connection to acrylic or glass lid and 96 hoses, for aqueous solutions, for connection of ampoules
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–2
Note	separate connection set necessary

Overview

Vertical manifolds

Item number	Connec-tions	Solvent	Water	Mounting	Width (mm)	Height (mm)	Weight (kg)	Connections[1]	Systems

with individually closable rubber valves for connection of round-bottom flasks and wide-neck bottles with DIN female ground joint NS 29/32

[1] The maximum number of large-volume vessels

Horizontal manifold (T shape)

Order number 110005

Material	Stainless steel
Width	1070 mm
Height	550 mm
Weight approx.	6 kg
Function	With flange-mounted acrylic glass lid Ø 300 mm and 16 rubber valves, for aqueous solutions
Connections	For connecting vessels with DIN female ground joint NS29/32: 16x 100 ml, 16x 250 ml, 16x 500 ml, 8x 1000 ml, 8x 2000 ml round-bottom flasks 16x 75 ml, 16x 150 ml, 16x 300 ml, 16x 600 ml, 16x 1200 ml, 16x 2000 ml wide-neck filter bottles
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24

Horizontal manifold (T shape)

Order number 121290

Material	Stainless steel with DIN male ground joint NS 45/40
Width	687 mm
Height	320 mm
Weight approx.	5.7 kg
Function	For connection to acrylic or glass lid with female ground joint and 20 rubber valves, for aqueous solutions
Features	The connections can be shut off individually and the drying vessels can be vented individually
Remark	Alpha 1–2 LDplus, Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24

Drying manifolds

Horizontal manifold (T shape)		Order number	110367
Material	Stainless steel with DIN male ground joint NS 45/40		
Width	301 mm		
Height	611 mm		
Function	For connection to acrylic or glass lid with female ground joint and 40 hoses, for connection of ampoules		
Features	The connections can be shut off individually and the drying vessels can be vented individually		
Remark	Alpha 1–2 LD plus, Alpha 1/2–4, Beta 1/2–8, Gamma 1/2–16 and Delta 1/2–24		

Overview

With individually closable rubber valves for connection of round-bottom flasks and wide-neck bottles with DIN female ground joint NS 29/32

1 The maximum number of large-volume vessels

Distributor for ampoules		Order number	121870
Connections	15		

Ball tap with small flange DN 10KF and accessories		Order number	112271
Function	For hot water defrosting		

✻ Here you can find the commonly used small items that can be essential for good results in your daily work with freeze dryers. For example, product sieves can prevent the loss of very light or fine-grain material.
Wide-neck filter bottles allow the equipment to be used almost continuously by connection to rubber valves, which act as three-way taps. Ampoules and injection vials are containers for long-term storage without contact with oxygen.

4 Drying Accessories

4.1 Product dishes

Product dishes

Product dish	Order number	127000
Material	Stainless steel	
Diameter	65 mm	
Rim height	20 mm	

Product dish	Order number	127010
Material	Stainless steel

4.3 Thermoblocks, split

Aluminium thermoblocks for sealing device, Ø 195 mm

Thermoblock	Order number	110069
Material	Aluminium	
Surface	Black anodised	
Diameter	195 mm	
Height	37 mm	
Form	Two-piece	
Function	For holding a total of 100 vessels Ø 10.2–10.8 x 42–49 mm with round bottom	

Thermoblock	Order number	112288
Material	Aluminium	
Surface	Black anodised	
Diameter	195 mm	
Height	33 mm	
Form	Two-piece	
Function	For holding a total of 72 vessels Ø 14–14.8 x 34–40 mm with flat bottom	

Thermoblock	Order number	112302
Material	Aluminium	
Surface	Black anodised	
Diameter	195 mm	
Height	30 mm	
Form	Two-piece	
Function	For holding a total of 92 vessels Ø 12–12.8 x 33–38 mm with flat bottom	

Aluminium thermoblocks for sealing device, Ø 195 mm

Thermoblock　　　　　　　　　　　　　　　　　　　　　　　　　Order number　112339

Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	30 mm
Form	Two-piece
Function	For holding a total of 70 vessels Ø 16 x 35 mm (2R vials)
Remark	Usable in Alpha 1-2 LDplus

Thermoblock　　　　　　　　　　　　　　　　　　　　　　　　　Order number　112487

Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	41 mm
Form	Two-piece
Function	For holding a total of 34 vessels Ø 21.5–22.6 x 44–51 mm (6R/8R vials)

Thermoblock　　　　　　　　　　　　　　　　　　　　　　　　　Order number　112243

Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	45 mm
Form	Two-piece
Function	For holding a total of 14 vessels Ø 27.5 x 57 mm with flat bottom

Thermoblock for shelves inside ice condenser chamber (120761)

Thermoblock		Order number	113318
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	70 mm		
Form	Two-piece		
Function	For a total of 24 vessels Ø 27.8–29.2 x 77–90 mm (50 ml flask) Only in combination with distance ring 120755		

Thermoblock for sealing device Ø 240 mm

Thermoblock		Order number	110200
Material	Aluminium		
Surface	Black anodised		
Diameter	240 mm		
Height	20 mm		
Form	Two-piece		
Function	For holding a total of 136 vessels Ø 12 x 30 mm		

Thermoblock		Order number	110159
Material	Aluminium		
Surface	Black anodised		
Diameter	240 mm		
Height	30 mm		
Form	Two-piece		
Function	For holding a total of 94 vessels Ø 15.4–16.3 x 31–36 mm (2R vials)		

Thermoblock		Order number	110064
Material	Aluminium		
Surface	Black anodised		
Diameter	240 mm		
Height	30 mm		
Form	Two-piece		
Function	For holding a total of 48 vessels Ø 23–24.2 x 35–41 mm with flat bottom		

Thermoblock		Order number	112240
Material	Aluminium		
Surface	Black anodised		
Diameter	240 mm		
Height	36 mm		
Form	Two-piece		
Function	For holding a total of 48 vessels Ø 23–24.2 x 41–48 mm (10R vials)		

Thermoblock for sealing device Ø 240 mm

Thermoblock	Order number	112370
Material	Aluminium	
Surface	Black anodised	
Diameter	240 mm	
Height	36 mm	
Form	Two-piece	
Function	For holding a total of 198 vessels Ø 10.5–11.1 x 41–48 mm with flat bottom	

Thermoblock	Order number	112402
Material	Aluminium	
Surface	Black anodised	
Diameter	240 mm	
Height	41 mm	
Form	Two-piece	
Function	For holding a total of 56 vessels Ø 21.4–22.5 x 44–51 mm (6R/8R vials)	

Thermoblock	Order number	112449
Material	Aluminium	
Surface	Black anodised	
Diameter	240 mm	
Height	43 mm	
Form	Two-piece	
Function	For holding a total of 32 vessels Ø 28.6–30.1 x 50–59 mm (20R vials)	

Overview

Aluminium thermoblocks

Item number	Block diameter (mm)	Number of vials	Vial diameter (mm)	Comments
110069	195	100	10.2–10.8 x 42–48	with round bottom
112302	195	92	12–12.8 x 33–38	with flat bottom
112339	195	70	16 x 35	2R vials
112487	195	34	21.5–22.6 x 44–51	6R/8R vials
112243	195	14	27.5 x 57	with flat bottom
113318	195	24	27.8–29.2 x 77–90	50 ml flask
110200	240	136	12 x 30	
110159	240	94	15.4–16.3 x 31–36	2R vials
110064	240	48	23–24.2 x 35–41	with flat bottom
112240	240	48	23–24.2 x 41–48	10R vials
112370	240	198	10.5–11.1 x 41–48	with flat bottom
112402	240	56	21.4–22.5 x 44–51	6R/8R vials
112449	240	32	28.6–30.1 x 50–59	20R vials

4.4 Thermoblocks, not split

Aluminium thermoblocks Ø 195 mm

Thermoblock	Order number 110319
Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	30 mm
Function	For holding a total of 70 vessels Ø 11.1–11.8 x 30–35 mm or 27 vessels Ø 19.7–20.7 x 37–43

Thermoblock	Order number 110007
Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	30 mm
Function	For holding a total of 79 vessels Ø 15.4–16.3 x 31–36 mm with flat bottom

Thermoblock	Order number 110053
Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	30 mm
Function	For holding a total of 118 vessels Ø 7.9–8.3 x 33–38 mm with round bottom

Thermoblock	Order number 110183
Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	33 mm
Function	For holding a total of 50 vessels Ø 12.1–12.8 x 33–38 mm with round or flat bottom or 50 vessels Ø 10.2–10.8 x 36–42 mm with flat or round bottom

Thermoblock	Order number 127213
Material	Aluminium
Surface	Black anodised
Diameter	195 mm
Height	30 mm
Function	For holding a total of 104 vessels Ø 12.1–12.8 x 33–38 mm with flat or round bottom

Aluminium thermoblocks Ø 195 mm

Thermoblock		Order number	127215
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	30 mm		
Function	For holding a total of 86 vessels Ø 14--14.8 x 33–38 mm		

Thermoblock		Order number	112218
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	30 mm		
Function	For holding a total of 44 vessels Ø 19.7–20.7 x 35–41 mm with flat bottom		

Thermoblock		Order number	112455
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	70 mm		
Function	For holding a total of 22 vessels Ø 27.8–29.2 x 36.5–43 mm (designed for flasks or Eppendorf) or 21 vessels Ø 9.9–10.5 x 48–56 mm or 22 vessels Ø 14.9–15.8 x 50.5–59 mm		

Thermoblock		Order number	112448
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	31 mm		
Function	For holding a total of 69 vessels Ø 16.5–17.5 x 36–42 mm		

Thermoblock		Order number	112225
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	32 mm		
Function	For holding a total of 50 vessels Ø 18.1–19.2 x 36–42 mm with flat bottom		

Thermoblock		Order number	112461
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	40 mm		
Function	For holding a total of 16 strips with 8 tubes per strip		

Aluminium thermoblocks Ø 195 mm

Thermoblock		Order number	112367
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	35 mm		
Function	For holding a total of 85 vessels Ø 15.1–16 x 40–47 mm with flat bottom		

Thermoblock		Order number	110006
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	50 mm		
Function	For holding a total of 43 vessels Ø 21.1–22.2 x 43–50 mm		

Thermoblock		Order number	110011
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	50 mm		
Function	For holding a total of 44 vessels Ø 14–14.8 x 41–48 mm (injection vials with crimp seal Ø 23 mm)		

Thermoblock		Order number	112354
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	38 mm		
Function	For holding a total of 140 vessels Ø 9.8–10.4 x 43–50 mm		

Thermoblock		Order number	110282
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	40 mm		
Function	For holding a total of 93 vessels Ø 13.5–14.3 x 43–50 mm with flat bottom		

Thermoblock		Order number	112223
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	45 mm		
Function	For holding a total of 37 vessels Ø 23.5–24.7 x 48–56 mm with flat bottom		

Aluminium thermoblocks Ø 195 mm

Thermoblock		Order number	112363
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	41.5 mm		
Function	For holding a total of 36 vessels Ø 24.2–25.4 x 48.5–57 mm (10H vials)		

Thermoblock		Order number	113307
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	45 mm		
Function	For holding a total of 52 vessels Ø 10.2–10.8 x 48–56 mm (Eppendorf caps)		
Remark	two pieces not usable for sealing device		

Thermoblock		Order number	113345
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	44 mm		
Function	For holding a total of 36 vessels Ø 22.8–24 x 51–60 mm (10R / 15R vials)		

Thermoblock		Order number	112364
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	46 mm		
Function	For holding a total of 23 vessels Ø 30.4–32 x 53–62 mm (20H vials)		

Thermoblock		Order number	113344
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	55 mm		
Function	For holding a total of 36 vessels Ø 28.5–30 x 63–74 mm (30R vials)		

Thermoblock		Order number	110161
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	58 mm		
Function	For holding a total of 86 vessels Ø 14.4–15.3 x 62–73 mm with round bottom (ampoules)		

Aluminium thermoblocks Ø 195 mm

Thermoblock		Order number	110010
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	60 mm		
Function	For holding a total of 79 vessels Ø 15.4–16.3 x 63–74 mm with round bottom		

Thermoblock		Order number	110050
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	70 mm		
Function	For holding a total of 20 vessels Ø 32.1–33.7 x 65–75 mm with round bottom		

Thermoblock		Order number	110530
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	60 mm		
Function	For holding a total of 100 vessels Ø 11.1–11.8 x 63–74 mm with round bottom		

Thermoblock		Order number	112246
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	60 mm		
Function	For holding a total of 91 vessels Ø 16.8–17.8 x 63–74 mm with flat bottom		

Thermoblock		Order number	110182
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	70 mm		
Function	For holding a total of 22 vessels Ø 27.8–29.2 x 68–80 mm or 22 vessels Ø 15.8–16.8 x 70–82 mm		

Thermoblock		Order number	112365
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	61 mm		
Function	For holding a total of 13 vessels Ø 40.4–42.5 x 68–80 mm (50H vials)		

Aluminium thermoblocks Ø 195 mm

Thermoblock		Order number	112366
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	43 mm		
Function	For holding a total of 7 vessels Ø 49.6–51.6 x 77.5–91 mm (100H vials)		

Thermoblock		Order number	112317
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	85 mm		
Function	For holding a total of 124 vessels Ø 6.9–7.3 x 80–94 mm or 124 vessels Ø 6.9–7.3 x 88–103 mm		

Thermoblock		Order number	110193
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	85 mm		
Function	For holding a total of 37 vessels Ø 23–25.1 x 84–99 mm with round bottom		

Thermoblock		Order number	110023
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	80 mm		
Function	For holding a total of 190 vessels Ø 7.9–8.3 x 83–97 mm with round bottom		

Thermoblock		Order number	112224
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	85 mm		
Function	For holding a total of 37 vessels Ø 23.9–25.1 x 90–106 mm with flat bottom		

Thermoblock		Order number	110311
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	100 mm		
Function	For holding a total of 37 vessels Ø 23.5–24.7 x 99–116 mm with flat bottom		

Thermoblock. not split Ø 195 mm, stackable

Thermoblock		Order number	127227
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	30 mm		
Function	For holding a total of 354 vessels Ø 10.2–10.8 x 33–38 mm (Eppendorf caps)		
Remark	Total height of three stacked blocks = 200 mm Space between thermoblocks 55 mm		

Thermoblock		Order number	112316
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	45 mm		
Function	For holding a total of 58 vessels Ø 10.2–10.8 x 33–38 mm (Eppendorf caps)		
Remark	Max. stacking height 4 blocks; spacers required (item no. 112315) Space between thermoblocks 30 mm		

Thermoblock		Order number	112346
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	70 mm		
Function	For holding a total of 72 vessels Ø 15.8–16.8 x 70–82 mm (15 ml Falcon tube); spacers required (item no. 113316)		

Thermoblock		Order number	110281
Material	Aluminium		
Surface	Black anodised		
Diameter	195 mm		
Height	70 mm		
Function	For holding a total of 27 vessels Ø 27.8–29.2 x 77–90 mm (50 ml Falcon tube); spacers required (item no. 113316)		

Thermoblock. not split Ø 360 mm

Thermoblock		Order number	110057
Material	Aluminium		
Surface	Black anodised		
Diameter	356 mm		
Height	150 mm		
Function	For holding a total of 12 vessels Ø 76.8–80 x 155–182 mm		

Thermoblock		Order number	110055
Material	Aluminium		
Surface	Black anodised		
Diameter	366 mm		
Height	220 mm		
Function	For holding a total of 6 vessels Ø 104.2–108.5 x 227–267 mm		

Overview

Aluminium thermoblocks

Item number	Block diameter (mm)	Number of vials	Vial diameter (mm)	Comments
110319	195	70 / 27	11.1–11.8 x 30–35	
			19.7–20.7 x 37–43	
110007	195	79	15.4–16.3 x 31–36	with flat bottom

110193	195	37	23–25 x 84–99	with round bottom
110023	195	190	7.9–8.3 x 83–97	with round bottom
112224	195	37	23.9–25.1 x 90–106	with flat bottom
110311	195	37	23.5–24.7 x 99–116	with flat bottom

4.5 Rubber valves

Rubber valves

Rubber valve	Order number	121860
Function	For connection to drying chamber or as spare rubber valve for drying manifold	
Features	The rubber valve is equipped with a DIN male ground joint NS29/32 for connection of round-bottom flasks, etc.; 5–100 ml injection vials or wide-neck filter bottles can be connected after removing the rubber ground joint from the valve	
Sterilisation	Fully sterilisable at +121°C	

Rubber valve	Order number	121861
Features	Rubber valve with stainless steel shut-off knob, solvent resistant version	
Function	For connecting vessels with DIN female ground joint 29/32	

Replacement rubber and piece	Order number	121865
Features	For rubber valve, NS 29/32	
Sterilisation	Sterilisable at +121°C	

Screw stopper	Order number	121862
Material	Plastic	
Connection	For rubber valve	
Sterilisation	Sterilisable at +121°C	

Shut-off knob	Order number	121863
Material	Stainless steel	
Connection	For rubber valve	
Sterilisation	Sterilisable at +121°C	

Adapter	Order number	121880
Connection	For rubber valve, NS 14.5	

Adapter and filter	Order number	121890
Connection	For rubber valve NS 29/32	

4.6 Round-bottom flasks

Round-bottom flasks

Round-bottom flask		Order number	127350
Size	100 ml		

Round-bottom flask		Order number	127355
Size	250 ml		

Round-bottom flask		Order number	127360
Size	500 ml		

Round-bottom flask		Order number	127361
Size	500 ml		
Features	With glass shard protection		

Round-bottom flask		Order number	127365
Size	1000 ml		

Round-bottom flask		Order number	127370
Size	2000 ml		

4.7 Filter inserts

Filter inserts and spare parts for filter inserts

Filter insert		Order number	121891
Features	With fine filter for rubber valves		

Filter insert		Order number	121892
Material	Stainless steel		
Features	With fine filter for rubber valves (solvent resistant)		

Filter paper		Order number	127444
Diameter	18 mm		
Quantity	100		
Function	For retention filter		

4.8 Wide-neck filter bottles

Wide-neck filter bottles

| Wide-neck filter bottle | | Order number | 127400 |
| Size | 75 ml | | |

| Wide-neck filter bottle | | Order number | 127405 |
| Size | 150 ml | | |

Wide-neck filter bottle		Order number	127410
Size	300 ml		
	wide neck filter bottle without cap - item no. 680520		

Wide-neck filter bottle		Order number	127415
Size	600 ml		
	wide neck filter bottle without cap - item no. 680530		

Wide-neck filter bottle		Order number	127420
Size	1200 ml		
	wide neck filter bottle without cap - item no. 680540		

Wide-neck filter bottle		Order number	127425
Size	2000 ml		
	wide neck filter bottle without cap - item no. 680550		

Order number of drying vessels	Nominal capacity (ml)	Dimensions Ø outside (mm)	Dimensions height (mm)	Bottle opening Ø	Content with 1 cm layer	
					Static (ml)	Dynamic (ml)*
127400	75	60	87	49	25	45
127405	150	70	87	49	35	115
127410	300	70	151	49	35	226
127415	600	105	130	77	78	302

| Spare rubber cap | | Order number | 127430 |
| Size | For Ø 75 ml to Ø 300 ml | | |

| Spare rubber cap | | Order number | 127431 |
| Size | For Ø 600 ml to Ø 2000 ml | | |

Filter paper		Order number	127440
Size	Ø 30 mm		
Quantity	100		
Pore size	70 µm		
Use	For wide-neck filter bottles 75 ml to 300 ml		

Filter paper		Order number	127442
Size	Ø 47 mm		
Quantity	100		
Pore size	70 µm		
Use	For wide-neck filter bottles 600 ml to 2000 ml		

4.9 Protective nets

Protective nets

Protective net		Order number	127380
Vessel Ø	80–120 mm		
Function	For round-bottom flasks and wide-neck filter bottles		
Length	250 mm		

Protective net		Order number	127381
Vessel Ø	100–200 mm		
Function	For round-bottom flasks and wide-neck filter bottles		
Length	250 mm		

Protective net		Order number	127382
Vessel Ø	150–230 mm		
Function	For round-bottom flasks and wide-neck filter bottles		
Length	250 mm		

4.10 Ampoules

Ampoules

Long-neck ampoules		Order number	127502
Capacity	2 ml		
Diameter	12 mm		
Overall length	121 mm		
Neck diameter	8 mm		
Neck length	90 mm		
Quantity	100		

Long-neck ampoules		Order number	127505
Capacity	5 ml		
Diameter	12 mm		
Overall length	156 mm		
Neck diameter	8 mm		
Quantity	100		

Long-neck ampoules		Order number	127510
Capacity	10 ml		
Diameter	16 mm		
Overall length	156 mm		
Neck diameter	8 mm		
Quantity	100		

Ampoule sealing torch		Order number	127695
Remark	For connection to gas and oxygen or to gas, air and oxygen. The torch has a special flame stabilisation system, which allows it to be operated with a high air ratio to cool the flame.		

4.11 Single vial sealing device

Screw bottles

Screw bottles		Order number	112488
Remark	For screw bottles compliant with ISO 11418, with round fitting 18 x 3.0		
Function	For connection to rubber valve		

4.12 Injection vials

Injection vials (crimp seal vials), DIN/ISO compliant

Injection vials		Order number	127572
Type	2 R		
Quantity	352		

Injection vials		Order number	127576
Type	6 R		
Quantity	192		

Injection vials		Order number	127580
Type	10 R		
Quantity	160		

Injection vials		Order number	127582
Type	20 R		
Quantity	99		

Injection vials		Order number	127585
Type	50 H		
Quantity	130		

Injection vials		Order number	127590
Type	100 H		
Quantity	88		

* Qvantity can vary

Vial type	Maximum capacity (ml)	Diameter (mm)	Height (mm)	Capacity with 1 cm fill level (ml)
2 R	4	16	35	1.4
4 R	6	16	45	1.4
6 R	10	22	40	3.0
8 R	11.5	22	45	3.0
10 R	13.5	24	45	3.7
15 R	19	24	60	3.7
20 R	25	30	55	5.8

100 H	119	51.6	94.5	17.7

Serrated rubber stopper		Order number	127650
Diameter	13 mm		
Function	For injection vials 2 R		
Quantity	100		

Serrated rubber stopper		Order number	127651
Diameter	20 mm		
Function	For injection vials 6 R–100 H		
Quantity	100		

Crimp caps		Order number	127660
Dimensions	Ø 13 x 6.8 mm		
Function	For injection vials 2 R		
Quantity	100		

Crimp caps		Order number	127661
Dimensions	Ø 20 x 7.5 mm		
Function	For injection vials 6 R–100 H		
Quantity	100		

Hand crimper		Order number	127670
Remark	For 2 R		

Hand crimper		Order number	127671
Remark	For 6 R–100 H		

Decrimper		Order number	127680
Remark	For 2 R		

Decrimper		Order number	127681
Remark	For 6 R–100 H		
Epsilon Accessories

✳ Systems with rectangular drying chambers are traditionally designated Epsilon at Christ. The shelves are usually heated or cooled, depending on the process step. Here as well it is important to choose the right accessories. The available options include product dishes for bulk goods, frames for direct contact between shelf surfaces and crimp vials, and drying manifolds for drying in flasks or wide-neck bottles on Epsilon systems.

5 Epsilon Accessories

5 Epsilon Accessories

Product dishes

Product dish Order number 127280

Material	Stainless steel
Size (mm)	225 x 300 x 30 (W x D x HD)
Remark	For Epsilon 2-6 D
Product frame Order number 127286

Material	Stainless steel
Size (mm)	225 x 300 x 30 (W x D x HD)
Remark	For Epsilon 2-6 D

Product base sheet Order number 127285

Material	Stainless steel
Size (mm)	225 x 300
Function	For product frame 127286
Remark	For Epsilon 2-6 D

Product sieve Order number 127282

Size (mm)	225 x 300
Mesh size	0.2 mm

Product dish Order number 127230

Material	Stainless steel
Size (mm)	227 x 400 x 20 (W x D x HD)
Rim height	20 mm
Remark	For Epsilon 1-4 / 2-4
Product frame Order number 127231

Material	Stainless steel
Size (mm)	227 x 400 x 20 (W x D x HD)
Remark	For Epsilon 1-4 / 2-4

Product base sheet Order number 127229

Material	Stainless steel
Size (mm)	227 x 400
Function	For product frame 127231
Remark	For Epsilon 1-4 / 2-4

Product dish   Order number   127230

Material	Stainless steel
Size (mm)	227 x 400 x 20 (W x D x HD)
Remark	For Epsilon 1-4 / 2-4

Product dish   Order number   127290

Material	Stainless steel
Size (mm)	350 x 450 x 30 (W x D x HD)
Weight approx.	2.3 kg
Remark	For Epsilon 2-12 D

Product dish   Order number   127190

Material	Stainless steel
Size (mm)	350 x 400 x 30 (W x D x HD)
Weight approx.	2.3 kg
Remark	For Epsilon 2-12 D

Product frame   Order number   127293

Material	Stainless steel
Size (mm)	350 x 450 x 30 (W x D x HD)
Weight approx.	1.5 kg
Remark	For Epsilon 2-12 D

Product base sheet   Order number   127295

Material	Stainless steel
Function	For product frame 127293
Weight approx.	1.8 kg
Remark	For Epsilon 2-12 D

Overview

Product dishes

Item number	Size in mm	Nominal volume Layer thickness 1 cm	Device
127230	270 x 400	1080 ml	Epsilon 1-4/2-4 and Epsilon 2-20
127280	225 x 300	675 ml	Epsilon 2-6 D
127260	300 x 400	1200 ml	Epsilon 2-16 D
127190	350 x 400	1400 ml	Epsilon 2-10 D
127290	350 x 450	1575 ml	Epsilon 2-12 D
127300	300 x 300	900 ml	Production systems
127310	300 x 450	1350 ml	Production systems
127320	300 x 600	1800 ml	Production systems

5.2 Sensor

Product sensor

Product sensor		Order number	124799
Model	PT 100		
Cable length approx.	0.8 m		

Product sensor		Order number	124801
Model	PT 100		
Cable length approx.	2 m		

Product sensor		Order number	124806
Model	2x PT 100		

Product sensor		Order number	124804
Model	PT 100 Mini-Epsilon		

5.3 Manifolder

Drying manifolder

Horizontal drying manifold		Order number	121202
Width	575 mm		
Height	753 mm		
Material	Stainless steel		
Function	With connection to rear wall of system via 2x DN 40 KF-37 and 12 rubber valves, **for substances containing solvents**		
Connection	For connecting vessels with DIN female ground joint NS29/32: 12x 100 ml, 12x 250 ml, 12x 500 ml, 12x 1000 ml, 8x 2000 ml round-bottom flasks· 12x 75 ml, 12x 150 ml, 12x 300 ml, 12x 600 ml, 12x 1200 ml, 6x 2000 ml wide-mouth filter bottles		
Features	The connections can be shut off individually and the drying vessels can be vented individually		
Remark	Epsilon 2-6 D		

Vertical manifold		Order number	121204
Width	400 mm		
Height	524 mm		
Material	Stainless steel		
Function	Flange mounted directly on drying chamber, with 4 rubber valves, **for substances containing solvents**		
Connection	For connecting vessels with DIN female ground joint NS29/32: 4x 100 ml, 4x 250 ml, 4x 500 ml, 4x 1000 ml, 4x 2000 ml round-bottom flasks 4x 75 ml, 4x 150 ml, 4x 300 ml, 4x 600 ml, 4x 1200 ml wide-mouth filter bottles		
Features	The connections can be shut off individually and the drying vessels can be vented individually		
Remark	1 level; only for Epsilon 1/2–4 LSCplus		

Drip tray		Order number	121345
Size	30 x 138 x 525 mm		
Function	For drying manifolds		
Remark	For Epsilon 2-6 D		

5.4 Thermoblocks

Thermoblocks for Epsilon

Thermoblock		Order number	112428
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	127.8 x 85.8 x 30 (L x W x H)		
Function	For holding a total of 30 vessels Ø 7.6–8 x 35–41 mm with flat bottom or holding a total of 20 vessels Ø 14.2–15.1 x 35–41 mm with flat bottom		

Thermoblock		Order number	110382
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	127.8 x 85.8 x 48 (L x W x H)		
Function	For holding a total of 40 vessels Ø 9.6–10.2 x 48.5–57 mm with flat bottom and crimp rim Ø 12.2		

Thermoblock		Order number	112290
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	127.8 x 85.7 x 31.5 (L x W x H)		
Function	For holding a total of 40 vessels Ø 10–10.6 x 36.5–43 mm with bail crimp		

Thermoblock		Order number	110534
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	127.8 x 85.8 x 43 (L x W x H)		
Function	For holding a total of 30 vessels Ø 10.4–11 x 51–60 mm (Eppendorf caps)		

Thermoblock		Order number	110535
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	127.8 x 85.8 x 23 (L x W x H)		
Function	For holding a total of 48 vessels Ø 11–11.6 x 28–33 mm		

Thermoblock		Order number	110356
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	127.8 x 85.8 x 72 (L x W x H)		
Function	For holding a total of 48 vessels Ø 11.3–12 x 79.5–93 mm with round bottom		

Thermoblocks for Epsilon

Thermoblock	Order number 113309
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 50 (L x W x H)
Function	For holding a total of 35 vessels Ø 12.1–12.8 x 55–64 mm with flat bottom

Thermoblock	Order number 110216
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.7 x 21 (L x W x H)
Function	For holding a total of 35 vessels Ø 12.6–13.3 x 27–31 mm with flat bottom

Thermoblock	Order number 110220
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 38 (L x W x H)
Function	For holding a total of 35 vessels Ø 13.8–14.6 x 44–51 mm with flat bottom

Thermoblock	Order number 110054
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 86 x 28 (L x W x H)
Function	For holding a total of 35 vessels Ø 14–14.8 x 33–38 mm with flat bottom

Thermoblock	Order number 110275
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 45 (L x W x H)
Function	For holding a total of 12 vessels Ø 14.1–15 x 43–50 mm with flat bottom

Thermoblock	Order number 110385
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	198 x 99 x 35 (L x W x H)
Function	For holding a total of 50 vessels Ø 15 x 45 mm with round or flat bottom

Thermoblocks for Epsilon

Thermoblock	Order number	110355
Material	Aluminium	
Surface	Black anodised	
Dimensions (mm)	127.8 x 85.8 x 72 (L x W x H)	
Function	For holding a total of 24 vessels Ø 15.1–16 x 72–84 mm with round bottom	

Thermoblock	Order number	110191
Material	Aluminium	
Surface	Black anodised	
Dimensions (mm)	127.8 x 85.8 x 44 (L x W x H)	
Function	For holding a total of 24 vessels Ø 15.8–16.8 x 44–51 mm with round bottom	

Thermoblock	Order number	110374
Material	Aluminium	
Surface	Black anodised	
Dimensions (mm)	127.8 x 85.8 x 35 (L x W x H)	
Function	For holding a total of 24 vessels Ø 16.1–17.1 x 41.5–48 mm	

Thermoblock	Order number	110300
Material	Aluminium	
Surface	Black anodised	
Dimensions (mm)	127.8 x 85.8 x 72 (L x W x H)	
Function	For holding a total of 24 vessels Ø 16.3–17.3 x 72–84 mm with round bottom	

Thermoblock	Order number	112344
Material	Aluminium	
Surface	Black anodised	
Dimensions (mm)	127.8 x 85.8 x 30 (L x W x H)	
Function	For holding a total of 24 vessels Ø 17.3–18.3 x 36–42 mm with flat bottom	

Thermoblock	Order number	110364
Material	Aluminium	
Surface	Black anodised	
Dimensions (mm)	127.8 x 85.8 x 38 (L x W x H)	
Function	For holding a total of 18 vessels Ø 19.2–20.2 x 46–54 mm with flat bottom	

Thermoblocks for Epsilon

Thermoblock	Order number 110370
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.7 x 25 (L x W x H)
Function	For holding a total of 18 vessels Ø 20.2–21.2 x 33–38 mm with flat bottom

Thermoblock	Order number 110305
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 61 (L x W x H)
Function	For holding a total of 12 vessels Ø 21.9–23 x 68–80 mm with flat bottom

Thermoblock	Order number 110219
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 38 (L x W x H)
Function	For holding a total of 12 vessels Ø 23.2–24.4 x 45–53 mm with flat bottom

Thermoblock	Order number 110322
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.7 x 31.5 (L x W x H)
Function	For holding a total of 12 vessels Ø 24–25.2 x 33.5–39 mm with flat bottom

Thermoblock	Order number 110321
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.7 x 31 (L x W x H)
Function	For holding a total of 10 vessels Ø 24–25.2 x 38–44 mm with flat bottom

Thermoblock	Order number 110511
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	187.5 x 134.5 x 20 (L x W x H)
Function	For holding a total of 35 vessels Ø 24 x 45 mm with flat bottom (10R vials)

Thermoblocks for Epsilon

Thermoblock	Order number 110368
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 38 (L x W x H)
Function	For holding a total of 10 vessels Ø 26.4–27.7 x 45–53 mm with flat bottom

Thermoblock	Order number 110304
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 61 (L x W x H)
Function	For holding a total of 10 vessels Ø 26.6–28 x 68–80 mm with flat bottom

Thermoblock	Order number 110301
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 93 x 65 (L x W x H)
Function	For holding a total of 12 vessels Ø 26.2–27.5 x 70–82 mm with flat bottom

Thermoblock	Order number 110533
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 63 (L x W x H)
Function	For holding a total of 11 vessels Ø 27.5–28.9 x 70–82 mm with flat bottom

Thermoblock	Order number 110376
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 38 (L x W x H)
Function	For holding a total of 8 vessels Ø 28.7–30.2 x 45–53 mm with flat bottom

Thermoblock	Order number 110190
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 44 (L x W x H)
Function	For holding a total of 6 vessels Ø 30.6–32.2 x 48–56 mm with flat bottom

Thermoblocks for Epsilon

Thermoblock   Order number   110197

Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 61 (L x W x H)
Function	For holding a total of 6 vessels Ø 32.5–34.2 x 69–81 mm with round bottom

Thermoblock   Order number   110192

Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 66.5 (L x W x H)
Function	For holding a total of 4 vessels Ø 42.3–44.5 x 51–60 mm with flat bottom

Thermoblock   Order number   110324

Material	Aluminium
Surface	Black anodised
Dimensions (mm)	127.8 x 85.8 x 42 (L x W x H)
Function	For holding a total of 2 vessels Ø 57.2–59.5 x 42–49 mm with flat bottom

Thermoblocks for Epsilon 2-4 / 2-10

Thermoblock	Order number 110245
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	400 x 99 x 25 (L x W x H)
Function	For holding a total of 150 vessels Ø 9.7–10.3 x 28–33 mm with round or flat bottom
Remark	6-row block

Thermoblock	Order number 112414
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	400 x 115.5 x 32 (L x W x H)
Function	For holding a total of 100 vessels Ø 10.2–10.8 x 34–40 mm or a total of 190 vessels Ø 9.1–9.6 x 36–42 mm
Remark	Two-sided, designed for two vessel sizes

Thermoblock	Order number 112411
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	400 x 63 x 45 (L x W x H)
Function	For holding a total of 50 vessels Ø 10.2–10.8 x 48–56 mm (Eppendorf caps)

Thermoblock	Order number 112413
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	400 x 113.8 x 45 (L x W x H)
Function	For holding a total of 100 vessels Ø 10.2–10.8 x 48–56 mm (Eppendorf caps)
Remark	Vials placed stepwise at an angle of 60° in four rows

Thermoblock	Order number 112220
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	296 x 219 x 5 (L x W x H)
Function	For holding a total of 88 vessels Ø 14.5–15.4 x 13–15 mm

Thermoblock	Order number 112434
Material	Aluminium
Surface	Black anodised
Dimensions (mm)	200 x 270 x 30 (L x W x H)
Function	For holding a total of 108 vessels Ø 16 x 35 mm with flat bottom (2R vials)

Thermoblock		Order number	112435
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	225 x 300 x 30 (L x W x H)		
Function	For holding a total of 130 vessels Ø 16 x 35 mm with flat bottom (2R vials)		

| Thermoblock		Order number	112483
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	400 x 80 x 62 (L x W x H)		
Function	For holding a total of 11 vessels Ø 27.8–29.2 x 65–76 mm (50 ml flask)		
Remark	1-row block		

Overview

Item number	Block dimensions (mm)	Number of vials	Vial diameter (mm) Height (mm)	Number of thermoblocks per shelf

Thermoblocks for Epsilon 2-12D

Thermoblock		Order number	110296
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	290.5 x 89.2 x 90 (L x W x H)		
Function	For holding a total of 75 vessels Ø 14.5–15,2 x 100–115 mm		

Thermoblock		Order number	110303
Material	Aluminium		
Surface	Black anodised		
Dimensions (mm)	231.3 x 80 x 85 (L x W x H)		
Function	For holding a total of 44 vessels Ø 16 x 100 mm with round bottom		
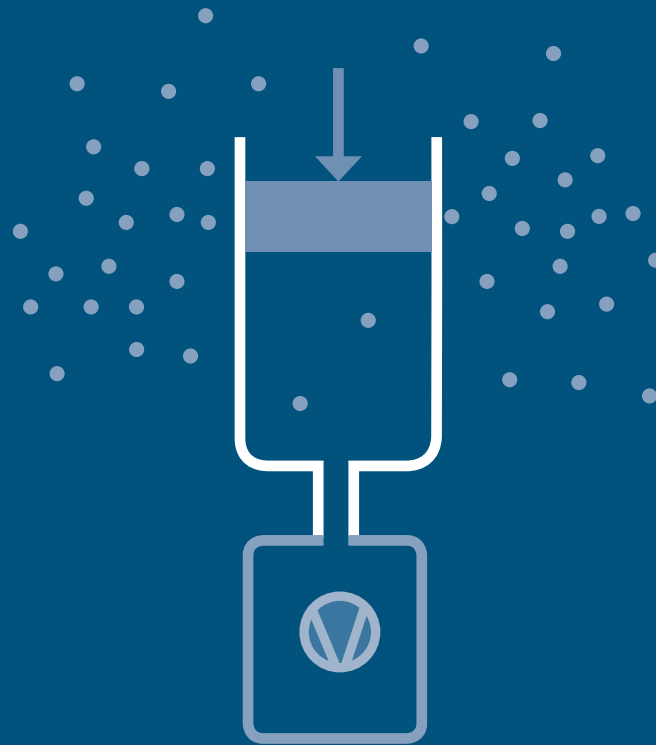

Vacuum

＊The best drying results are obtained with the right vacuum. For aqueous media or media with low solvent content, oil-sealed rotary vane pumps are typically used, although oil-free dry-running pumps are increasingly being used. Their advantage is that there is no need for oil changes or disposal of used oil. Where specimens containing solvents or specimens fully dissolved in organic substances such as DMSO, acetonitryl or tertiary butanol are used, pumps that can withstand these chemicals must be used.
The state of the art here is chemistry hybrid pumps, which consist of a rotary vane pump with an auxiliary diaphragm pump that evacuates the oil space. This reduces the condensation of aggressive solvents in the vacuum pump oil. The vacuum range that pump systems for freeze drying must be able to achieve in practice is 0.005 to 0.01 millibar (hPa).
Most vacuum sensors used for process control are hot-wire types (Pirani sensors; see the general information section) and are also available in chemical-resistant versions.

6 Vacuum

6.1 Vacuum pumps

Vacuum pumps

Chemical hybrid vacuum pump   Order number   125295

Model	RC6
Suction capacity	5.9 m³/h
Power	230 V, 50/60 Hz
Features	With small flange coupling DN 16
Remark	Final vacuum 2×10^{-3} mbar

Chemical hybrid vacuum pump   Order number   125296

Model	RC6
Features	Emissions condenser and trap, for substances containing solvents
Suction capacity	5.9 m³/h
Power	230 V, 50/60 Hz
Features	With small flange coupling DN 16
Remark	Final vacuum 2×10^{-3} mbar

Vacuum pump (chemical-resistant rotary-vane pump)   Order number   125261

Model	Pascal 2010 C1
Suction capacity	10 m³/h
Power	230 V, 50/60 Hz
Features	With small flange coupling DN 25
Remark	Final vacuum 2×10^{-3} mbar

Vacuum pump (chemical-resistant rotary-vane pump)   Order number   125263

Model	Pascal 2021 C1
Suction capacity	21 m³/h
Power	230 V, 50/60 Hz
Features	With small flange coupling DN 25
Remark	Final vacuum 2×10^{-3} mbar

Vacuum pump (rotary-vane pump)		Order number	125302
Model	RZ 2,5		
Suction capacity	2.3 m³/h		
Power	230 V, 50/60 Hz		
Features	With small flange coupling DN 16		
Remark	Final vacuum 2×10^{-3} mbar		

Vacuum pump (rotary-vane pump)		Order number	125307
Model	RZ 6		
Suction capacity	5.7 m³/h		
Power	230 V, 50/60 Hz		
Features	With small flange coupling DN 16		
Remark	Final vacuum 2×10^{-3} mbar		

Vacuum pump:		Order number	125317
Model	DUO 10		
Suction capacity	11.1 m³/h		
Power	230 V, 50/60 Hz		
Features	With small flange coupling DN 25/25		
Remark	Final vacuum 2×10^{-3} mbar		

Vacuum pump:		Order number	125318
Model	DUO 20		
Suction capacity	20 m³/h		
Power	230 V, 50/60 Hz		
Features	With small flange coupling DN 25/25		
Remark	Final vacuum 2×10^{-3} mbar		

Vacuum pump:		Order number	125245
Model	nXDS 10i		
Suction capacity	11.4 m³/h		
Power	200–240 V, 50/60 Hz		
Remark	Final vacuum <0,01 mbar		
Features	With small flange coupling DN 25/25		

6.2 Vacuum pump oil

Vacuum pump oil

P3 pump oil		Order number	126181
Contents	1 l bottle		
Pumps	RZ / RC / DUO		

Pump oil		Order number	126185
Contents	5 l cannister		
Pumps	RZ / RC / DUO		

Pump oil		Order number	126200
Contents	20 l cannister		
Pumps	RZ / RC / DUO		

6.3 Vacuum hoses

Vacuum hoses

Vacuum hose		Order number	125702
Length	1 m		
Features	With standard flange couplings DN 16 / DN 25		

Vacuum hose		Order number	125706
Length	1.5 m		
Features	With standard flange couplings DN 16 / DN 25		

Vacuum hose		Order number	125704
Length	1 m		
Features	With standard flange couplings DN 25 / DN 25		

Vacuum hose		Order number	125705
Length	1.5 m		
Features	With standard flange couplings DN 25 / DN 25		

6.4 Vacuum accessories

Vacuum accessories

Micro aeration valve

Order number	125931

Features	With hose fitting

Micro vent valve

Order number	125932

Features	With hose fitting and pipe bend, DN25 / DN25
Electromagnetic pressure control valve

Order number	125910

Function	For installation in the suction line of the vacuum pump
Features	With DN 25 / DN25
Remark	Usable for all laboratory freeze dryer and Epsilon 1–4 / 2–4 LSCplus

Manual stop valve

Order number	125920

Function	For the vacuum hose between LDplus series freeze dryer systems and the vacuum pump (in place of the solenoid pressure control valve 125910)
Features	With standard flange DN 25 / DN25

Exhaust filter

Order number	125501

Remark	For vacuum pumps 125302 / 125307

Replacement filter cartridge

Order number	125509

Remark	For 125501

Exhaust filter		Order number	125502
Model	ONF 25 L		
Features	With automatic oil return		

Note: for Duo pump

Exhaust filter		Order number	125503
Model	ONF 25 L		
Features	Without automatic oil return		

Note: for Duo pump

Replacement filter cartridge		Order number	125510
Remark	For 125502 and 125503		

Vacuum sensor		Order number	125478
Model	VCP 63 MV		
Connection	With integrated signal processing for direct connection to the freeze drying system		
Measuring range	1000 – 0.001 mbar		
Measuring principle	Pirani		
Features	With connecting cable, clamping/centring and T fitting		
Warranty	6 months		
Note	These sensors are wear parts whose service life is largely dependent on the proper use and handling of the freeze dryer		

Note: only for Alpha 1-2 LDplus

Vacuum sensor		Order number	125488
Model	VCP 63 MV		
Connection	With integrated signal processing for direct connection to the freeze drying system		
Measuring range	1000 – 0.001 mbar		
Measuring principle	Pirani		
Features	With connecting cable, clamping/centring and T fitting		
Warranty	6 months		
Note	These sensors are wear parts whose service life is largely dependent on the proper use and handling of the freeze dryer		

Replacement sensor		Order number	125468
Model	VCP 63 MV		
Warranty	6 months		

Vacuum sensor		Order number	125491
Modell	CMR 363		
Connection	Preferably for pilot systems and for laboratory units		
Measuring range	10-0.05 hPa (mbar) or lower with reduced accuracy		
Measuring principle	Capacitive		
Warranty	6 months		
Note	These sensors are wear parts whose service life is largely dependent on the proper use and handling of the freeze dryer		

Chemical-resistant vacuum sensor

Order number 125476

Model	TPR 281
Connection	With integrated signal processing for direct connection to the freeze drying system
Measuring range	1000 – 0.001 mbar
Measuring principle	Pirani
Features	Complete with connecting cable, two centring and clamping rings and T fitting DN 25/25 ISO-KF
Warranty	6 months
Note	These sensors are wear parts whose service life is largely dependent on the proper use and handling of the freeze dryer

Replacement sensor

Order number 125466

|	
Model	TPR 281
Connection	For connection to system controller; chemical resistant
Warranty	6 months
Note	These sensors are wear parts whose service life is largely dependent on the proper use and handling of the freeze dryer

High-vacuum grease

Order number 126210

Remark	

Process Data Acquisition

✳ Our unique software for process documentation is described in this section. It is available in two versions: a basic version for data logging and a full version with extensive additional control functions. A software module for recipe generation and an extension unit for the utilisation of heated shelves are also available.
The related hardware accessories include product probes for temperature and electrical resistance, data cables, etc.
7 Process Data Acquisition

7.1 Software and hardware

Software and hardware

Program selection module

Order number 125099

Model	PGM-30
Function	LSCplus system controller extension module for 30 user-defined individual programs
Control	Control of temperature and pressure profiles and individual process steps (freezing, primary drying, secondary drying)
Features	Very easy to use thanks to integration into system controller and guided data entry; supports entry and deletion of individual steps

LyoControlplus

Order number 125050

Function	Determination of eutectic point
Features	Includes sensors for temperature and resistance
Note	For use in combination with LSCplus system controller and LyoLogplus documentation software

Documentation software LyoLogplus

Order number 125025

Function	Windows-based software for logging relevant process parameters: ice condenser temperature, product temperature, shelf temperature, vacuum, and/or Lyo-Rx (depending on freeze dryer configuration)
Features	Supports export in PDF and Excel file formats

USB

Order number 125037

Model	Process data logging for equipment with LSCplus system controller
Function	For graphical process display
Includes	USB stick, LyoLogplus installation CD
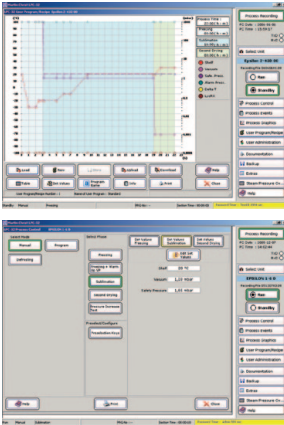

LPCplus process visualisation		Order number	125042
Model	LPCplus		
Function	Software for standard PCs for data transfer and freeze drying system monitoring in combination with LSCplus system controller		
Includes	LPC software on diskettes, 1 connecting cable, installation and operation manual, Laptop with operating system		
Note	Laptop included		

7.2 Sensors

Sensors

Product sensor		Order number	124812
Model	PT 100		
Cable length approx.	0.26 m		
Features	With precision connector for use with LSCplus controller		

Product sensor		Order number	124799
Model	PT 100		
Cable length approx.	0.8 m		
Features	With precision connector		
Remark	Epsilon		

Product sensor		Order number	124800
Model	PT 100		
Cable length approx.	1.3 m		
Features	With precision connector		
Remark	Epsilon		

Product sensor		Order number	124801
Model	PT 100		
Cable length approx.	2 m		
Features	With precision connector		
Remark	Epsilon		

Sensor for temperature and resistance		Order number	124809
Function	For LyoControlplus		
Remark	With precision connector for use with LSCplus system controller		
Cable lenght	0,26 m		

Sensor for temperature and resistance		Order number	125130
Function	For LyoControl and LyoControlplus		
Remark	Epsilon		
Cable lenght	0,8 m		

Cooling Baths and Freezing Equipment

✳ The accessories in this section can be used for routine external freezing of specimens in round-bottom flasks or wide-mouth bottles prior to drying. Freezing under rotation to form relatively thin frozen layers dramatically reduces drying time
(see separate booklet "Principles and Applications of Freeze Drying"). Suitable media for cooling baths are also available.

8 Cooling Baths and Freezing Equipment

8 Cooling Baths and Freezing Equipment

Cooling Baths and Freezing Equipment

Cooling bath   Order number   101840

Model	CB 18-40
Dimensions (mm)	410 x 450 x 460
Bath depth	200 mm
Bath opening (mm)	300 x 327 (W x L)
Characteristics	Air cooled
Features	Stainless steel tank with integrated condensate drain, digital display and actual ice condenser temperature indication
Capacity	18 litres
Bath temp.	Approx. -40 °C
Power	230 V, 50 Hz
Note	For connection of 1 or 2 rotators
Features	Non-halogenated chilling media

Rotator with support rod   Order number   120720

Function	For freezing liquids in round-bottom flasks
Weight approx.	3.8 kg
Power	230 V, 50 Hz
Features	Speed continuously variable from 60 to 2000 rpm

Horizontal roller rotator   Order number   120726

Material	Stainless steel
Weight approx.	11.5 kg
Application	For 1 or 2 1200-ml wide-neck filter bottles
Power	220 V, 50 Hz
Features	Speed continuously variable from 60 to 2000 rpm

Therminol D12   Order number   130345

Quantity	5 l cannister

Therminol D12   Order number   130350

Quantity	10 l cannister

Therminol D12   Order number   130360

Quantity	20 l cannister

Service and Representatives

Christ systems are marketed in more than 70 countries worldwide.
To enable support for our customers at all times, we have an international
network of representatives for advice and service.
At the national level, support and advice are provided by our representatives
and by our trained system specialists directly from our head office.

We are there for you all the time.
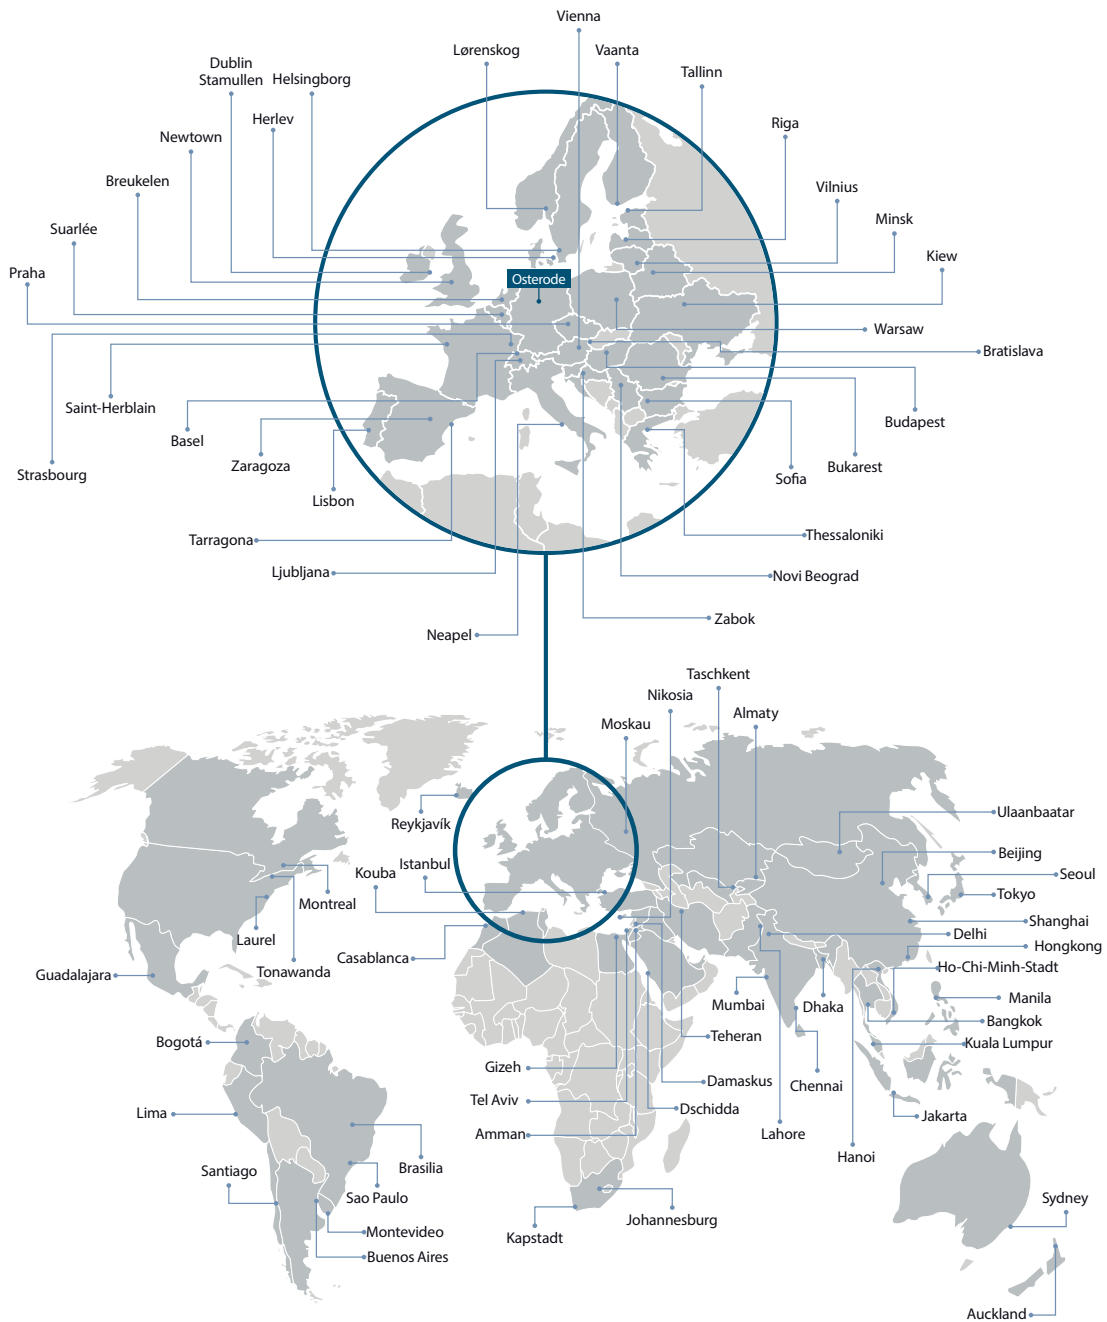

Selected international Christ representatives

For information about our international representatives and contact data,
visit www.martinchrist.de

Questionnaire for requesting advice or a quotation

....

Your name and address

....

1   What is the maximum quantity (kilograms or litres) to be dried each day?

....

2   Are there any particular requirements regarding batch size? If so, please specify.

....

3   What has to be dried?

....

4   What is the ratio (weight percentage) of the dry substance to the initial overall mass?

....

5   What is the consistency of the substance to be dried (low viscosity, high viscosity, pasty, solid)? If solid, how big are the pieces?

....

6   Does the substance to be dried contain solvents other than water? If so, which ones and in what percentages?

....

7   What residual moisture level in the dried substance is considered acceptable?

....

....

8   If you already have experience with freeze drying, of the substance concerned, what is your opinion of:

a) the quality of the dried substance?

b) the equipment used?

....

9   What vessels are to be used for drying? What are the shapes and sizes of the vessels? Can you provide samples? How much undried substance should be present in each vessel? How many vessels per batch are necessary? (Note: These details are particularly important to help us determine the proper choice of freeze drying equipment for your application.)

....

10   Will the substance be stored in the drying vessels, or is transfer necessary?

....

11   Is sealing under vacuum necessary?

⋯⋯⋯

12   Is preservation under nitrogen necessary?

⋯⋯⋯

13   Available power:

AC   ⋯⋯⋯⋯⋯⋯⋯ . V   ⋯⋯⋯⋯⋯⋯⋯ . Hz

3-phase AC ⋯⋯⋯⋯⋯⋯⋯ . V   ⋯⋯⋯⋯⋯⋯⋯ . Hz

⋯⋯⋯

14   Do you have any other specific wishes or requirements?

⋯⋯⋯

A laboratory is available for carrying out tests of drying methods.

⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯   ⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯⋯

Our Product Spectrum

With our unique and broad spectrum of equipment and accessories, we supply freeze drying systems and vacuum concentrators for every application. Let us show you what we can do!

1 Freeze drying systems for industrial production with ice condenser capacities from 20 to 500 kg; custom system engineering including loading and unloading systems.

2 Pilot freeze drying systems for process development or optimisation with ice condenser capacities from 4 to 16 kg.

3 Freeze drying systems for routine applications or R&D with ice condenser capacities from 2 to 24 kg.

4 Rotation vacuum concentrators for applications ranging from routine operations to evaporation concentration in advanced pharmaceutical research
